

Appln No. 09/747,677

Amdt date June 15, 2006

Reply to Office action of January 30, 2006

**REMARKS/ARGUMENTS**

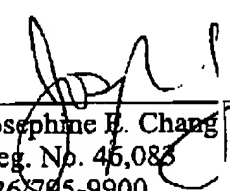

Claims 90-123 are currently pending in this application. Claims 90 and 106 have been amended.

Applicant would like to thank the Examiner for conducting a personal interview with the undersigned on June 12, 2006. During the interview, the Examiner noted that claims 90 and 106 do not require the limitations of a receiver reviewing the indicia, retrieving the identifier, and switching from a current program stream to a particular program stream, because the receiver is only claimed to be "capable of" doing these things. Applicant has replaced the phrase "capable of" with "programmed to." Accordingly, Applicant respectfully requests an indication of allowance of claims 90-123.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP
